

LIVING LANDSCAPE

The European Landscape Convention in research perspective

Scientific Conference **FLORENCE+10**
Florence, 18 – 19 October 2010

PRE-ANNOUNCEMENT AND CALL FOR PAPERS

What has science contributed to the implementation of the European Landscape Convention?
And what are the topics for the future of European landscape?

The 10th anniversary of the Florence Convention is occasion to discuss in depth the merits of landscape science at the forefront of integrated research in a rapidly changing spatial environment.

Interdisciplinary contributions explicitly referring to the principles of the Landscape Convention are especially welcomed.

Four themes are chosen for the parallel sessions:

- perception studies;
- landscape identification and typology;
- effects of policy development on landscape;
- and participation studies.

Call for papers

Aim of the conference is to discuss cutting-edge research results at the crossroads of sciences and humanities, design and empiricism. Papers will be prepared in advance, and selected as a basis for the debate in the conference. The results of the debate will be presented to the political audience present for the Florence+10 event on 20 October.

After the conference the papers will be updated and published in scientific journals.

Conference language is English.

Organisation

The conference is a joint initiative of UNISCAPE and LANDSCAPE EUROPE.

It is a next step in the EUROSCAPE2020 process launched by LANDSCAPE EUROPE in 2008 (see www.landscape-europe.net/EuroscapeSeminar.html). It is also the first major scientific event promoted by UNISCAPE. Florence is chosen as venue because it hosts the Florence+10 celebrations; it is also the seat of UNISCAPE.

Time frame

15 Jan 2010	submission of abstracts
February 2010	invitation to prepare full papers
30 April 2010	submission of full papers
May 2010	peer review of papers, selection of the 30 most innovative papers; other papers will be published in proceedings
June – August 2010	revision of the 30 papers
September 2010	submission of revised papers

Programme outline

Monday 18 October 2010	morning	plenary opening session
	afternoon	2 parallel sessions
Tuesday 19 October 2010	morning	2 parallel sessions
	afternoon	plenary concluding session

Participants

About 200.

It is the intention to organise a Landscape Master Class in parallel for post-graduate students.

Scientific Committee

Prof. Marc Antrop, Prof. Gian Franco Cartei, Prof. Michael Dower, Prof. Almo Farina, Prof. Yves Luginbühl, Prof. Carlo Magnani, Prof. Bas Pedroli, Prof. Michel Prieur, Prof. Annalisa Calcagno Maniglio, Dott. Riccardo Priore, Prof. Florencio Zoido.

UNISCAPE, *Network of Universities for the European Landscape Convention* is the Network of Universities since 2008 especially dedicated to the implementation of the European Landscape Convention. Aim of UNISCAPE is to support and reinforce interdisciplinary co-operation within and among European universities regarding landscape issues, especially in the areas of research and education. UNISCAPE thereby promotes the principles and the objectives of the Florence Convention (the European Landscape Convention, in force since 2004). www.uniscape.eu

LANDSCAPE EUROPE, *International Network of Expertise on Landscapes* is an interdisciplinary network of national research institutes with expertise in landscape assessment, planning and management at the interface of policy implementation, education and state-of-the-art science in support of sustainable landscapes. It was established in 2001 and promoted many research actions and debates, among which the EUROScape2020 initiative in 2008. www.landscape-europe.net
